Dear Members of the Southeastern Chapter:

I hope all of you are having a good year, but it might not be a good idea to ask if you are. We should all consider ourselves fortunate to have whatever we have, and be thankful to God for it.

As my presidency began, the idea of having meetings in each state throughout our region was my main focus, targeting areas from which we have had very little participation for the past several conferences. The enrollment in our first two meetings has included many first time attendees from Florida and North Carolina, where these meetings were held. They, along with some "regulars" were able to take advantage of this unique opportunity for valuable technical and "hands on" training offered by our chapter. On a small scale, these meetings also offer an idea of how our Annual Fall Conferences are conducted, thus sparking greater attendance and participation in them from Active Members, Affiliate Members and even potential members. These state meetings will continue through 2012.

Most of us have the Internet available, and at any time we can obtain information at the touch of a few keys. We can also pickup the telephone and call our ESAS friends in St. Louis or at other shops to get help as well. But there is just something about going to an EASA lecture or seminar, seeing and hearing about it in person in a classroom, that you never forget! I have trouble remembering telephone conversations from a while back, but I can still remember little "tidbits" of information from past EASA lectures from all over the country, dating back to the 80's and 90's. This information has helped me and Porter's Electric work through situations that have arisen in the shop, and to satisfy our customers. I have also shared valuable information with fellow EASAns at some of our past Fall Conferences.

I challenge each of you to support our chapter's events by attending personally, or by sending some of your personnel. You will not be disappointed in the value received or the price of receiving it!

Lastly, I would like to thank all of you who have aided me in my Presidency and in our efforts to offer our chapter benefits in training and up-to-date industry knowledge. I specifically wish to thank the Southeastern Chapter board members, past and present, who have assisted me, our Affiliate members, and our Executive Secretary/Treasurer.

Let's support EASA in both our Region and at International. I look forward to seeing you at our next EASA event!

P. Chris Raines
