

1975 TECHNICAL FORUM

April 4-5, 1975 - Richmond, Virginia - The Holiday Inn West - Chairman: Bill Nelson, Jr., Nelson Electrical Co., Richmond, VA.

# South WIND

VOLUME 3, ISSUE NO. 1

MAY-JUNE

1975

Southeastern Chapter President, Bill Morrison installed new President, Steve Darby on April 3, 1975, at Richmond, Virginia.

## TECHNICAL FORUM GENERATES FOOD FOR THOUGHT

by E. Steve Darby

Steve Darby, Southeastern Chapter's new president, presents a framed certificate to Past President, Bill Morrison in appreciation for his service to the chapter.

The Twenty-first Annual Technical Forum was a very successful meeting with 102 registered to attend and 100 actually in attendance. Chairman Bill Nelson did a great job. Some last minute changes in the Saturday morning sessions made everything run smooth as silk. The buffet breakfast was a great idea by Region IV Director, Buck Buchanan. This should become a permanent part of the schedule since breakfast is always the biggest bottleneck at our meetings. Dividing the members into three groups on Saturday morning and letting the speakers present their programs three times required some really understanding speakers but it offered each member a better chance to participate in the training sessions.

Your Board of Directors met Thursday evening, April 3 for a dinner and Board meeting with the new Officers and Directors sworn in for the new fiscal year. You have a working board, an active board. They authorized the publication of a chapter handbook which you will receive in the near future. They requested the Executive-Secretary to publish the *Southwind* and promised to submit information to her to print. They watch the chapter finances like hawks and they seek ways to serve you. One of the best ways your Chapter can serve you is by providing outstanding meetings for you to attend. This is done through early planning and a lot of hard work. The 1975 Fall Conference is being planned right now by Chairman Jake Turner and his committee. Jake has plenty of experience so you can be sure this will be one of the greatest Conferences this chapter has ever had.

Georgia State Director Buster Cleveland is planning the March 1976 Technical Forum for Atlanta and he has come up with some great ideas for making it a real learning experience. South Carolina State Director Jack Ledford asked for the 1976 Fall Conference to be held in South Carolina at the Hyatt Hilton on Hilton Head. North Carolina State Director Edward Jenkins bid for the 1977 Technical Forum for Charlotte.

You can be sure you are well taken care of as Southeastern Chapter members.

A Technical Forum is being held this month in Richmond, Va., by Southeastern Chapter. The group also meets in the fall in Tampa, Fla.

ELECTRICAL APPARATUS / APRIL 1975

Bill Nelson handled arrangements for the Southeastern Chapter's 21st Annual Technical Forum, where Fred Stephens, S/W Enterprises, and John Munganast,

Power Semi-Conductors, Inc., were among speakers to an audience of 100. Grand Lake, Okla., was the setting for the spring meeting of Heart of America Chapter, May 1-2. Enrolled as members were William M. McBrayer, Allied Electric & Power, Inc., Fort Smith, Ark.; Walter J. McDaniel, F & F Electric Co., Topeka, Kans.; and Art Vallee, Industrial Electric Motor Service, St. Joseph, Mo.

### Southeastern Technical Forum

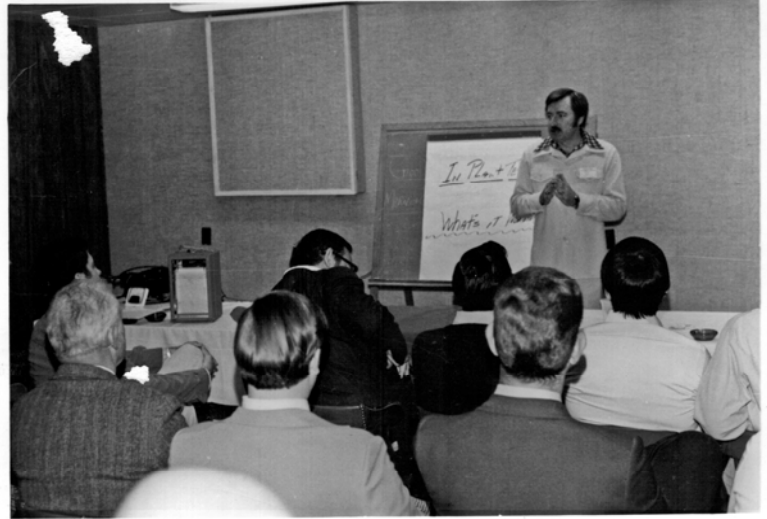

One hundred attended the 21st Annual Technical Forum, a traditional event of EASA's Southeastern Chapter, held recently in Richmond, Va. Steve Darby, newly-installed president, presents his predecessor, Bill Morrison, with a certificate for service. Bill Nelson (left) was general chairman.
